

Radon Measurement Proficiency

April 30 & May 1, 2012

From radon science basics to certification test preparation, our Radon Measurement Proficiency course is your best introduction to the why, how, and when of radon. In this 2-day class, you will learn:

- About selection, placement, set up/operation of measurement devices
- How to calculate radon levels and conduct quality assurance tests to ensure accurate results
- How to make mitigation referrals for your customers if radon exceeds dangerous levels

Radon Mitigation— Don't Just Measure, Mitigate!

May 2, 3, 4, 2012

Boost your earning potential by expanding into the field of radon mitigation, you can begin your move into the field with this three-day workshop. **You must complete the two day Radon Measurement Proficiency course first.** In this 3-day class, you will learn:

- How to diagnose and then correct radon problems in the home
- How air pressure affects ventilation
- Fan sizes and the impact on both air flow and operating costs
- How radon moves through water
- The importance of safety precautions for mitigation work
- Mitigation techniques for new construction

National Certification Information

Become nationally certified by taking the National Environmental Health Association (NEHA) or the National Radon Safety Board (NRSB) exam. The national examinations (NEHA-NRPP or NRSB) are administered in the evening at the conclusion of each course on Tuesday 5/1/12 for Measurement and Friday 5/4/12 for Mitigation.

Both Trainings Will Be Held At:
Cornell Cooperative Extension Albany County
24 Martin Road, Voorheesville, NY 12186
For Local Information/Directions, Call 518-765-3500

Radon Measurement Course (EA0201CE12)

\$40 before 4/13/12 \$65 after

Measurement Exam

\$150 on or before 4/13/12 \$175 after

Please select exam choice:

NEHA NRSB

Radon Mitigation Course (EA0301CD12)

\$95 on or before 4/13/12 \$120 after

Mitigation Exam

\$150 on or before 4/13/12 \$175 after

Please select exam choice:

NEHA NRSB
